

COATING REMOVAL SYSTEM

DESCRIPTION

The Coating Removal System is fully ATEX certified for use in Zones 1 and 2 areas without the need for a Hot Work Permit. The innovative and unique design of the rotating disc quickly and efficiently safely removes paint and other coatings from metalwork prior to repair or re-coating.

KEY FEATURES

COLD WORK PERMIT

LARGE SURFACE AREA FOR EFFICIENT REMOVAL

EASE OF USE

SAFETY TRIGGER

UNIVERSAL AIR CONNECTION

TECHNICAL SPECIFICATION

CERTIFICATION & MARKING	ATEX DNV 12 ATEX 14513X Ex II 2G c IIA T160°C II 2D c T160°C I M2 c T160°C
OPERATING TEMPERATURE	-20°C to +40°C
MAXIMUM AIR PRESSURE (BAR)	6.3
AIR HOSE DIAMETER	1/4"
MOTOR SPEED (RPM)	1000
AIR CONSUMPTION FREE SPEED (CFM)	15.9
WEIGHT (KG)	2.2
VIBRATION VALUE (M/S ²)	<2.5
SOUND PRESSURE LEVEL (dBA)	89

*3/8" air hose is used with a reducer
